Foreign Affairs.  
London, April 24.—An immense number of employees of match factories approached the House of Commons with petitions against the threatened excise. The crowd was noisy, but an ample police force controlled it. A large procession approaching from East London was dispersed en route.  
Berlin, April 24.—Parliament has passed the loan bill. Bismarck stated in the House, to-day, that although the French should pay the first instalment of indemnity immediately, the forts North and East of Paris would not be evacuated until the final treaty of peace was concluded. Negotiations at Brussels made slow progress. The French were trying to better the conditions, but Germany was inflexible. The movement of the Communists entailed sacrifices on Germany, but she would not meddle with the internal affairs of France.  
Munich, April 24.—The King of Bavaria has written a letter to Dr. Dollinger, deploring the sentence of excommunication against him.  
Versailles, April 24.—Evening.—Fort Valerien slightly cannonaded the Maillet gate of Paris to-day. Gen. Ducrot has resigned.  
Paris, April 24.—Evening.—It is expected a suspension of hostilities did not take place to-day, but it is believed will commence to-morrow. The Communist newspapers of to-day concentrate in an attack upon Thiers. A placard upon the walls invites the friends of order to be in readiness to avenge their brethren murdered in the recent butchery in Place Vendôme.  
London, April 24.—The insurgents made a sortie Sunday towards Châtillon, and at first captured a barricade held by the Versailles troops, but were eventually repulsed with heavy loss. General Donai has replaced General Ducrot in command of a portion of the army of the Assembly.  
Versailles, April 25.—Thiers, in a circular, on the 24th, says the last few days have been employed in engineering work and concentrating our troops. A new corps has been formed at Ocherbourg, Cambrai and Auxerre, composed of the heroes of Gravelotte. Generals Donai and Chinochant will command them. Later engagements at Bagnat were successful for our troops, who captured a red flag. The great operation will soon commence.  
A heavy cannonade was opened this morning by the Versailles from Meudon, Ocreuil and Châtillon, upon Issy, Vanvres and Port du Jour.  
London, April 25.—It is reported that the steamship Queen of Thames, bound hither from Melbourne, foundered. Many lives lost. No particulars.  
American Intelligence.  
Albany, N. Y., April 25.—The canals opened for navigation to-day. Reports from all sections are that the canals are in good order.  
Caracas, April 9.—Quesada remains at Caracas, having received 6,000 pounds from Oasanova, emissary of the New York Cubans. Quesada has gone to St. Thomas; thence he will go to Aspinwall to meet the steamer and return to New York. There are no indications that Guzman will aid Quesada. The largest portion of Pulido's army has returned to Lagueyria from the West, where peace is re-established. It is generally supposed that Guzman's partisans are working to commence a rebellion to overthrow him.  
Port au Prince, April 8, via Havana, April 24.—The Hornet is again offered for sale. She will probably be purchased by the Dominicans. The excitement over the annexation of St. Domingo is subsiding. A loan to redeem the currency and for establishing specie payment is strongly discussed.  
San Domingo, April 12.—The troops of Baez have again defeated Cabral. Several indecisive engagements between the forces of Lapran and Baez have taken place recently in the Northern provinces.  
St. Louis, April 25.—The heavy frost Saturday night damaged the grapes and peaches. Wm. Marsh, engineer on the Belle of Alton, has been taken to New Orleans, charged with burning the Belle.  
Louisville, April 25.—There was a heavy frost and ice an inch thick here this morning. The fruit is badly damaged.  
Memphis, April 25.—The Avalanche says two negroes, charged with destroying part and stealing part of the papers of the sheriff's office, at Dresden, Miss., were hung by masked men.  
New York, April 25.—The Sun says a gigantic fraud has been discovered, and asserts that Victor Place, the late French Consul, with one Hector Chavitan, and some prominent personages, made a large amount illegally from the French Government, by the exaction of a commission and overcharges on arms and provisions purchased in this country. One operation, in beef alone, as said by the Sun, netted the ring \$3,000. The total contracts amounted to over \$10,000,000, on which two per cent. commission was levied. The Sun adds: Fifty to 800 per cent. profit was charged on a large amount of guns purchased of the United States Government, and that a profit of \$250,000 was made on thirty-five batteries of Napoleon guns alone. Place has been relieved by M. Belloigne, who, with M. Bughas, late Consul of Charleston, have been appointed a committee of inquiry into all the transactions.  
A special from New Orleans, at 9 o'clock, last evening, says the Bonnet Carre crevasse is still extending, and twelve miles of the Jackson Railroad have been washed away. The President and Engineer of the road set out to-night for the scene of disaster. The engineer in charge of Bonnet send the following despatch: We have, of necessity, abandoned the idea of closing the crevasse, and are confining our efforts to check its extension. I am satisfied our

exertion in this direction will be successful, and a further spread of this dreadful calamity avoided. I have used our tug to assist some of the distressed planters in removing their household furniture. Two other crevasses—one at Point Monroir, West of Baton Rouge, and one on the McDonough estate, below the city, are reported.  
Boder, an alleged fugitive forger, will be returned to Prussia upon the President's extradition warrant.  
Col. B. T. Morgan has been appointed assistant postmaster.  
The agents of one of the Southern railway lines received a private despatch from New Orleans, announcing that communication with the North by rail is temporarily severed by the Bonnet Carre crevasse. The embankment of the Jackson road for fourteen miles, together with the telegraph lines along the track, have been entirely swept away by the flood. The entire country, as far as Lake Ponchartraine, is submerged. At 11 o'clock last night, the crevasse was about 1,000 feet wide. About 5,000 men, including the railroad laborers, are at work upon the embankments, and hopes are entertained that a further widening of the breach might be prevented.  
New Orleans, April 25.—A heavy thunder storm here yesterday. A house on St. Cloud street was struck by lightning, instantly killing Mrs. Giese and seriously injuring Mrs. Holmko. The tug boats Aspinwall and Admiral, while racing on the river yesterday, ran into the harbor police boat, knocking it to pieces, instantly killing officer Douglass. Three other officers were saved by swimming ashore.  
The latest from the Bonnet Carre crevasse reports the break 700 feet wide. Nothing official has been received from that point this morning. The water is running over the track of the Jackson Road, between the thirteenth and fourteenth mile posts, at Kenners. Volunteers have turned out to throw up works to stop the water coming from the rear. Chief Engineer Thompson has just received official information that the Wallace crevasse at St. James has been effectually stopped. The Mesoro and Villo crevasse have both been closed. Men and material have gone to the McDonough crevasse, which is expected to be closed by night. Nothing received from Poverty Point to-day. Gen. Thompson asserts there is no danger of the city being overflowed.  
Washington, April 25.—It is the Grand Duke Alexis, the third son of the Czar, who is coming.  
The Legislative Council for the Territory of the District of Columbia is called by Governor Cooke for May 15.  
The representative of the Sisters of Our Lady of Mercy, of Charleston, S. C., received \$12,000 from the Treasury to-day.  
Probabilities.—It is probable that on Tuesday night the barometer will continue to fall over the lake district, and that on Wednesday, cloudy and rainy weather will be very generally experienced from Wisconsin to Alabama and Eastward, with brisk winds in the Middle and Eastern States.  
Boston, April 25.—Debris in the bay indicates certainly the bark Merrimack, from Boston for Montevideo, which was run down by an outward bound vessel, and all lost.  
Wilmington, April 25.—The schooner Ann Dole, from Jacksonville, Fla., for New York, was dismantled and lost all her sails off Hatteras, and towed into Hatteras Inlet by the schooner Sarah Bruen, on the 24th. The Ann Dole is gone to Newberne for repairs.  
Charleston, April 25.—Arrived.—Steamers Charleston, New York; Falcon, Baltimore; schooners N. W. Smith, New York; John Ferris, Baltimore; David Miller, New Orleans.  
Mr. Joseph W. Boyd, for twenty-one years a citizen of Troup County, and ninety years old, recently visited the editor of the LaGrange (Ga.) Reporter. He is a native of Abbeville, S. C., and was a schoolmate of John C. Calhoun. He has only worn glasses for five or six years. His wife, at the age of seventy-seven, still lives, and enjoys good health.  
An undertaker in Terre Haute, Ind., boasts that he has buried 5,000 people.
